Hi support staff,

I have a question, where I can download the Zebra font in truetype font.

ie. if you are going to use Zebra Designer 2, you can use many fonts Arial, Calibri Light ect. also on the list are zebra fonts: ZEBRA 0, ZEBRA A, ZEBRA B, ZEBRA C, ZEBRA CG Triumvirate BC, ZEBRA D, ZEBRA F, ZEBRA G, ZEBRA GS, ZEBRA OCR-A, ZEBRA OCR-B, ZEBRA Swiss Unicode.

Where can I download this fonts in truetype font format.

ZEBRA 0.ttf
ZEBRA A.ttf
ZEBRA B.ttf
ZEBRA C.ttf
ZEBRA CG Triumvirate BC.ttf
ZEBRA D.ttf
ZEBRA F.ttf
ZEBRA G.ttf
ZEBRA GS.ttf
ZEBRA OCR-A.ttf
ZEBRA OCR-B.ttf
ZEBRA SwissUnicode.ttf

I tried to find with many software of Zebra:

1. Zebra Setup Utilises.exe
2. Zebra Font Downloader.exe
3. Zebra Designer.exe
4. ZebraNet Bridge Enterprise.exe
5. Swiss 721 Font.exe
6. Zebra ZTools.exe

I have checkout in installed directories of these software but the are not any files with extension .ttf (truetype font).

C:\Program Files (x86)\Zebra Technologies\Zebra Font Downloader
C:\Program Files (x86)\Zebra Technologies\Zebra Setup Utilities
C:\Program Files (x86)\Zebra Technologies\ZebraDesigner 2
C:\Program Files (x86)\ZebraLink\ZebraNet Bridge

I am developer, I am creating a web service which create images from barcodes reading the EPL2 Programin Language. So on this I needs this fonts in truetype.

Can you help me on this please !?

Sincerely,
Riad Ibrahimi

Dear Mr. Ibrahimi,

Zebra Fonts are available under the following link:

https://www.zebra.com/us/en/products/accessories/printer-print-engine-accessories/font-packs.html

I attached you the swiss font.

Zebra 0 – Zebra OCRB you listed just comes with the Zebra Designer.

I think that are Fonts which are always usable with the printers.

Do you need any Software ? All these Software are available on zebra.com .

When you can't download what you need, tell me what you need and I try to send it to you.

**Mit freundlichen Grüßen / Kind Regards**

Hi Mr. Ulmer,

I have checked that link many times, but there is no button for starting download font download,
there is only a select-box which you can select printer.
( https://www.zebra.com/us/en/products/accessories/printer-print-engine-accessories/font-packs.html )

Please, can you send me at least this font *****  ZEBRA A.ttf  *****

Kind regards,
Riad

To: Riad Ibrahimi <ibrahimi.riad@gmail.com>

Dear Mr. Ibrahimi,

i would send this to you if it would be possible.

There Fonts just come with the Zebra Designer !

That are fonts that should already are installed on the printer and useable.

I find no way to export them from the software to send these files.#
